

# LUMENSOURCE

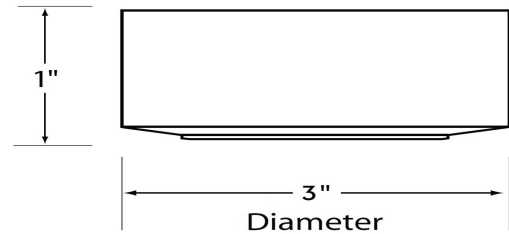

## PUCK RGB SERIES 120V AC

The high brightness LED puck uses only 6W of RGB that has color changing controlled by a remote control. The LED puck mounts into undercabinets with mounting kit providing high performance, energy saving, and long lasting light output. The direct line voltage feature eliminates extra costs and space of low voltage LED drivers.

## SPECIFICATIONS

Model	UC-P9-RGB
Wattage	6W
Voltage	120V AC
Average Lifetime	> 50,000 hrs
Colors	RGB 4 Color Changing Programs 16 Static Color Selections
Luminous Flux	120 lm
Beam Angle	120 degrees
Dimensions	3" dia / 1" Height
Dimmability	Remote control
LED	9

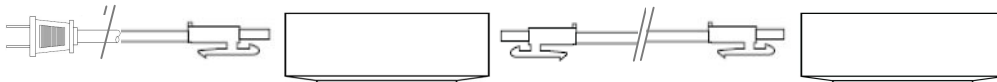

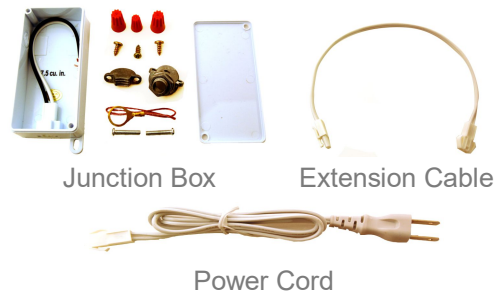

## ORDERING INFO

- UC-P9-RGB (Puck)
- IRC-160-L3 (Remote control)

## ACCESSORIES

Single power connection will enable the option of linking multiple units together
