

# LUMENSOURCE

## DMX USB SERIES

The DMX USB Controller features a software that utilizes graphical user interface (GUI) that is easy to install and operate. The control box meets DMX512/1990 International Standards Protocol and includes a 3-pin XLR connector. The control box provides various programs for chasing lights and / or gradual color changes for simultaneous light shows. It is perfect for special effects on outdoor steps, wall washing, cove lighting and accent decoration.
