

EMERGENCY SWITCH PACK BACK-UP POWER SERIES

The Lumensource Emergency Switch Pack provides an excellent replacement to traditional fluorescent back-up systems. The solid state control design provides automatic power loss detection to switch lighting systems to battery back-up in an event of emergency egress needs.

Project: _____

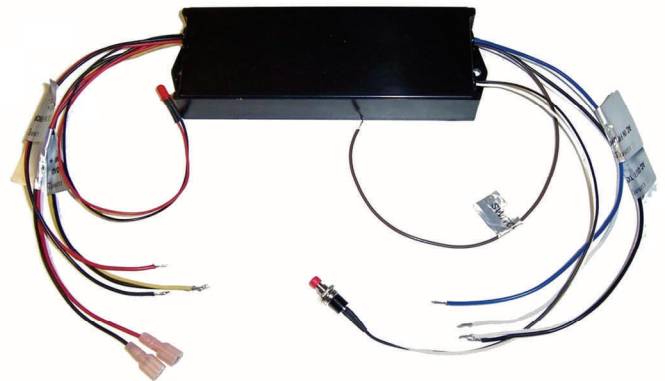

Date: _____

Notes: _____

Configuration: _____

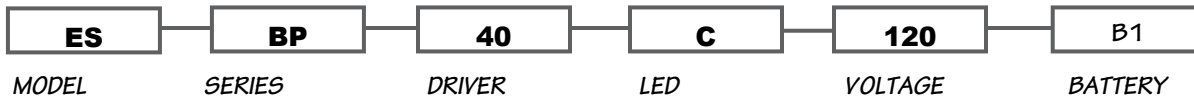

FEATURES

- Replaceable remote lead-acid battery
- Test switch and charge indicator included
- Easily identified colored wire connection
- Universal input for easy installation
- Meets NFPA 101 life safety code 90min minimum operation
- UL1310 Class 2 output classification

ORDERING INFORMATION

Standard Configuration:

MODEL

ES - Emergency Switch

SERIES

BP - Back-up Power

DRIVER

40W (8hr charge)
60W (6hr charge)

LED VOLTAGE

12 - 12VDC

INPUT VOLTAGE

120
208
240
277
(VAC input)

BATTERY SIZE

B1 - 7" L x 1.5" W x 2.5" H
(2.3AH, 12VDC)
