

LUMENSOURCE

RGB CONTROLLER MT SERIES

The RGB controller features preprogrammed color changing sequences and a color wheel on the same remote control. This RGB controller also features flashing different single colors or as an RGB gradual color changer light show. The preset colors can be individually dimmed. The controller is perfect for special effects on outdoor steps, wall washing and cove lighting or simple accent decoration. The unit operates at an output of 3 Amps per channel and up to 108W.
