

LUMENSOURCE

RGB MINI CONTROLLER SERIES

The RGB controller features preprogrammed color changing sequences. Mini remote control includes dimming functions of single colors and a on/off switch. The white receiver box has a wire extending IR sensor that can be mount away and hiding the receiver box. This RGB controller also features a selection different single color or as an RGB gradual color changer light show. The controller is perfect for special effects on outdoor steps, wall washer and cove lighting or sample accent decoration.
